International Conference on Psychiatry and Neurorestoratology & International Symposium on Syringomyelia and Cerebrospinal Fluid Dynamics (China)

November 20, 2021 Zhengzhou, China (Online Conference)

CALL FOR PAPERS

We are inviting you to attend the **International Conference on Psychiatry and Neurorestoratology & International Symposium on Syringomyelia and Cerebrospinal Fluid Dynamics (China) (ICPN2021)**, which will be held during **November 20, 2021** in **Zhengzhou Central Hospital Affiliated to Zhengzhou University**, Zhengzhou, China.

This academic conference is a continuing medical education program at the national level. It aims to promote the new theories, technologies and methods of syringomyelia and related cross-sections through the form of symposium. The symposium takes ***"Research Progress Seminar on Syringomyelia and Cerebrospinal Fluid Dynamics"*** as the carrier and co-organize with the ***"International Conference on Psychiatry and Neurorestoratology"***, focusing on new developments in marginal subjects and interdisciplinary subjects, and introducing the frontiers of international development through academic exchanges, in order to promote advanced technologies and achievements of syringomyelia and mental illness at home and abroad.

Cerebrospinal fluid dynamics, psychiatry, and neurorestoratology are among the most complex research fields in modern surgery, and there exists some intersection relationship among the three disciplines. This symposium will invite international authoritative experts and domestic well-known professors in the field of neurology to share the research frontiers, introduce and discuss the latest research progress and hotspots of neurology and psychiatry, and challenges and cases encountered in practice.

We wholeheartedly invite domestic doctors, interns, graduate students focusing on clinical syringomyelia disease to participate in the academic exchanges. Participant will get 6 credits for continuing medical education.

◆ TOPICS

The conference collects proceedings papers (abstract). All submissions will be reviewed by 2-3 experts from the organizing committee. After strict review, all accepted papers will be published and submitted to the Web of Science by the cooperative journals. The abstract will be included by SCI\SSCI\CPCI-SH\CPCI-SSH.

Requested Areas:

- Psychiatric Neurorestoratology
- Clinical Psychiatry
- Brain and Spinal Cord Trauma
- Adult Psychiatry
- Hereditary Neurorestoratology
- Child and Adolescent Psychiatry
- Pediatric Neurorestoratology
- Pain Neurorestoratology
- Geriatric Psychiatry
- Geriatric Neurorestoratology
- Neurorestorative Mechanism and Clinical Study of Spinal Cord Injury
- Psychiatric Epidemiology
- Social Psychiatry
- Regenerative Therapy in CNS Diseases
- Arnold-Chiari Malformation
- Diagnosis and Treatment of Syringomyelia
- Application of PC-MRI in the Pathogenesis of Syringomyelia
- New Clinical Practice Guidelines for Syringomyelia
- Surgery for Syringomyelia

IMPORTANT DATES

Abstract Submission Due: **July 15, 2021**
Acceptance Notification: **July 25, 2021**
Full Paper Submission Due: **September 01, 2021**
Early Registration Due: **August 02, 2021**

◆ CHAIRMAN

Yong Liu
Chief of the Syringomyelia Department in Tsinghua University Yuquan Hospital, China

◆ EXECUTIVE CHAIRMAN

Marcus Stoodley
Macquarie University,
Department of Clinical Medicine, Australian

◆ PLENARY SPEAKERS

Yongli, Lou
Zhengzhou Central Hospital

Youhui, Min
Zhengzhou Central Hospital

Hui Zhang
Zhengzhou Central Hospital

Guoshao, Sun
Zhengzhou Central Hospital

Laijun, Song
The First Affiliated Hospital of Zhengzhou University

Yigong, Wang
Xuchang Central Hospital

Weixin, Li
Tangdu Hospital

Xiaoming, Che
Huashan Hospital

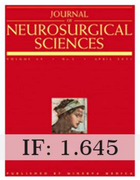
Huimin, Zhu
Henan Provincial Orthopedic Hospital

◆ RECOMMENDED JOURNALS

The participants are welcomed to submit research and review papers relevant to the theme of these special issues. All submitted full papers will be reviewed and considered for publication in the special issues of these journals.

ISSN: 1461-1457

ISSN: 1462-3730



ISSN: 0390-5616

ISSN: 1092-8529

ISSN: 0014-3022

- Only registered participants have the chance to publish paper on the special issue
- All submissions need to be within the acceptance range of the special issue
- The manuscript should not be submitted to more than one journal for simultaneous consideration
- All submissions should be sent via email to icpnconf@hotmail.com
- All submissions should be written in English (*.docx)
- The text similarity below 15% is acceptable
